

# **Falcon Player Manual**

## **Version 5.0**

**Version 5.0 of the FPP Manual is currently under revision. As soon as the revisions are made, they will be updated here. In the meantime, the Version 4.6 manual is available here:**

Once the new manual has been updated, the link in FPP will take you to the most current version of the manual.

Version 5.0 is a complete redesign of the User Interface so the screens will not look anything like the screens in previous versions. The functioning will be the same so hopefully you can find the section that you need.
